

Flower Smash Flags

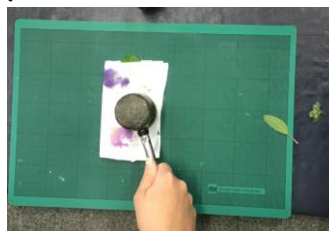

You will need:

Some flowers and leaves (ask before you pick them), a piece of material or paper, a stick, a large stone (We used a mallet first) and two pieces of wool or string

1. Fold the material in half and open it back out
2. Place the flowers and leaves thinking about pattern and colour on half the material
3. Fold the material or paper over on top of the flowers and gently hit with the stone or mallet (make sure an adult is around to supervise)

4. Open it out to see the pattern

5. Cut two small holes and use these to tie your material to the stick.

What will your flag be used for?
