

Perception

We all see things differently.

Look at these images. What can you see?

Talk to people in your house. Can they see the same as you?

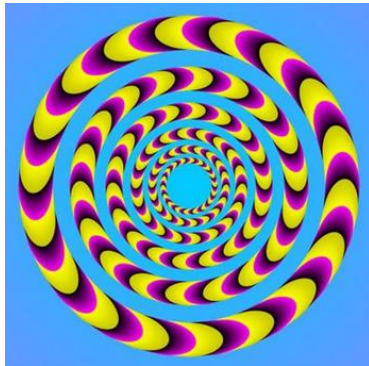

Can you explain what you can see? Do they see it now?

Old man or man on a horse?

Can you see the dog?

Does this move?

Forest or tiger?

People have different beliefs, views and perspectives. Listen to what they say, explain what you think and make your own decision!
