

We're Going on a School Hunt

We're going on a school hunt...we're going to find a great one.

Uh-oh! Sats, Phonics screening, GLD! We won't ignore them, we won't let the children be scared....We'll have to prepare them for success.

Uh-oh! Life Skills! We won't travel through life without them, we won't leave our children struggling to achieve them....We'll have to teach them through our fully tailored curriculum.

Uh-oh! Challenges! We won't let our children fail them, we won't give them easy ones....We'll have to raise their confidence and allow them to 'dream big' through fantastic teaching and supportive adults.

Uh-oh! Formal classroom lessons! We won't let our children be bored by them, we won't keep their learning limited to the same four walls.... We'll have to provide specialised learning facilities and outdoor learning.

Uh-oh! Technology! We won't enter the working world without it, we won't be unsafe on it ...we'll have to invest in equipment and training in it.

Uh-oh! The big wide world! We won't ignore our local community, we won't be unprepared for the diversity in the world around us....we'll need to engage with them.

Uh-oh! Children! We won't let them be robots, we won't let them rely on others....we'll have to develop them as individuals and help instil in them core values.

Uh-oh! Inspection! We won't escape from it, we won't avoid it! We'll face it! We're not SCARED! We know we're fantastic!
