

How to make a pine cone bird feeder

You will need:

1 pine cone
String
Bird seed
Fat (we used Trex)
Lollipop stick

1. Attach the string to the top of the pine cone, tie a knot to secure.
2. Using a lollipop stick, smooth a thin layer of fat all over your pine cone.
3. Roll your pine cone in bird seeds.
4. Take your bird feeder outside and hang on a tree.
5. Await the birds' arrival!
