Hand in Date: 12.6.20

Key Stage 1 Writing Task - Linked to Geography

Create a Fact File

Outcome: Create a fact file all about a country or place you'd like to visit or know more about. It could be somewhere in England or abroad.

Work can be completed on Purple Mash, a 2DO task has been set to create a fact file for France, Spain or America. You could choose one of those options or if you prefer you could do it on paper and then email in a photograph of your completed fact file. We love seeing your fabulous home learning!

There is a planning sheet below to help you think about what information you could include. You can then do some research to find out all about the place.

There is also an example of what your fact file could look like.

Supporting Activities

Why not have a go at making some other items linked to your chosen place.

- A shoe box model of your country or place. You could include places of interest and geographical features e.g. the beach, a river or mountain.
- A colourful flag of the country using different materials you have at home or crayons.
- A picture of you at the place you have chosen. You might be exploring one of the places of interest or enjoying some of the local food.

- A detailed model of one of its famous features e.g. The Eiffel Tower.

Again, please send us some photographs. We really do love to see what you have been doing at home.

Planning Sheet

Use this sheet to help you gather information that you can then put into a colourful fact file.

My chosen country/place is:	
The language spoken there is:	
The Population is: (How many people live there)	
The geographical features are: These could include rivers, mountains, volcanoes etc.	
The places of Interest are: What do people go to see? What famous landmarks are there?
