

Hello, I am proud member of staff at Bishop Alexander. I joined this wonderful team in 1998 (yes, I have taught many generations of families). Whilst working at Bishop, I have had so many amazing memories. All the excitement from parents, the community and pupils with building the new school (and knocking the old one down) has to be the most memorable.

Mrs Ward

My favourite books:

My Beautiful Oops by Barney Saltzberg
Secret Breakers by H.L. Dennis
Any books by Robert Subuda

I am delighted to work at Bishop because of the team spirit. Everyone pulls together and that is how we do the very best for all of our pupils.

My hobbies and interests:

- Gardening.
- Long walks outside and spotting unusual wildlife.
- Having a laugh with my family.

The person I find inspirational is Steven Hawking because although he was diagnosed with a debilitating illness, he never gave up. He spent a huge amount of his life unable to speak and in a wheel chair but he still travelled the world, wrote books and had really 'forward thinking' ideas.

If I wasn't a SENCo, I would love to be a Nature Conservationist, protecting wildlife and teaching children to look after our environment.
